Dr Heroka Ph.D Physicist Projecting Spiritual Healing Energies

• Healer Therapy & Validation

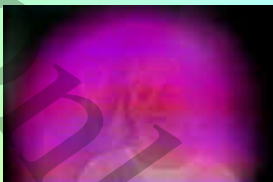

Have your healing energies captured in real time live video, for display on screen or to recordable cd playable on most computers.

Dr Debbie Smith Ph. D Optometry

• Advanced Healer Support groups

Do you run a support group that offers Continued Professional Development of your group, students or organisation? We can help support healers of all grades from students to Reiki Masters, not only does this service help healers see their healing energies being projected to their clients, it also helps them advance their healing skills to an enhanced level by validating the process.

- Before treatment the disturbed aura colours are visible. But during the healing session you can clearly see the colour energy interaction between healer & client as the balancing / healing takes place.
- After treatment, the balancing & colour changes are clearly visible in the aura. So with live aura video capture you can potentially prove the process of healing.
